

Tec-Masters, Inc. is a customer focused company that recognizes...

*"Quality is the Key to Customer Satisfaction."*

Since 1988 we have successfully met or exceeded the requirements of more than 1300 Federal Government Task Orders – the ultimate benefactor being the Warfighter. Our Commercial Customers continue to profit from our exceptional management, performance, and execution.

The basic principles that underpin our company are:

- Aspiring to be the best
- Performance beyond expectations
- Highest standards of integrity

Tec-Masters, Inc. brings unsurpassed dedication, quality and reliability to every task at hand. Headquartered in Huntsville, Alabama with offices located throughout the United States, Tec-Masters, Inc. provides innovative, robust scientific and technological solutions for Federal and Commercial customers worldwide.

### Core Capabilities

- Engineering Services
- Modeling & Simulation
- Test & Evaluation
- System Engineering & Technical Assistance Support
- Logistics Support & Manufacturing
- Space Technology
- Training & Doctrine Development
- Creative Multimedia
- Information Technology/Cybersecurity

*Winner of Numerous Corporate Awards*

### Locations

### President & CEO:

Dr. Marvin P. Carroll

### Executive Vice President:

Ralph Johnson

### Vice President Operations:

John Broyles

### Corporate Offices:

1500 Perimeter Parkway  
Suite 215  
Huntsville, AL 35806  
256.830.4000

Providing Innovative Technical Solutions

ISO 9001:2008 Certified  
CMMI Level 3  
Cisco Certified

Tec-Masters provides expertise in support of the following areas:

## **Modeling & Simulation**

- Constructive Simulation
- Exercise & Experimentation Support
- Force on Force Analysis
- Cost Analysis
- Operation Research Analysis
- Enhancement
- Simulation Training

## **Missile Defense**

- Radar Digital Signal Injection
- Simulation Over Live Driver (SOLD)
- Independent Verification & Validation
- Integrated Missile Defense Ground Test

## **Weapons Systems**

- Software & Hardware Engineering
- System Engineering, Studies & Analysis
- Aviation, Fire Support, GPS Technology
- Programmatic & Logistical Support
- Configuration & Data Management

## **Creative Multimedia**

- Training Development
- Distance Learning Platforms
- Video Productions
- Digital Web Design
- Learning Management Systems

## **Space Technology**

- Payload Development/Integration
- Prototyping
- Thermal/Fluids Design
- Radiation Shielding

## **Training & Doctrine Development**

- **Instructional Training**
  - Course & Courseware Development
  - New Equipment Training
  - Tactics, Techniques & Procedures
  - Training Support Package
  - Doctrine Development
  - Platform Instruction
- **Live Training**
  - PEO STRI Interoperable Training, Testing & Simulation
  - Range Instrumentation

## **Logistics Support & Manufacturing**

- Manufacturing & Assembly
- Acquisition Logistics
- Staging, Kitting & Fielding
- Equipment Modifications
- Unique Item Identification
- Contractor Logistics Support
  - Field Service - Spares - Data Reporting

## **Information Technology/Cybersecurity**

- Assess, Design, Build, Operate & Maintain Mission-Critical Systems
- Security Engineering
- IT Design With Bedrock Security
- ITILv3 & CMMI Level 3 Operations
- Infrastructure Transport Services
- Inside/Outside Plant Design & Installation
- 10G & OC-192 Implementation
- Unified Communications: Voice, Video & Data Network
- Continuity of Operations
  - Crisis Avoidance & Disaster Recovery
- IPv6 & Wireless
- eTeaching: Train Without Travel
- Meet 8570.1 Certification & CEUs
