

Tec-Masters, Inc. Receives Raytheon Award

Huntsville, Alabama: April 12, 2010 – Tec-Masters, Inc. proudly received the Outstanding Supplier Award from Raytheon for the Patriot Communications and Reliability Improvement Program (CRIP). This award was given in appreciation for outstanding support of the US Army Patriot and the Raytheon CRIP Programs, allowing early delivery of the first Tactical Command System (TCS).

The Patriot Air and Missile Defense System is the world's most advanced air and missile defense system. Raytheon is the prime contractor for Patriot — a long-range, high-altitude, all-weather system. All Patriot system components provide the warfighter a reliable and lethal capability to defeat advanced threats, including aircraft, tactical ballistic missiles, cruise missiles and UAVs in current and future operational combat environments.

“It is an honor to work with Raytheon and the US Army to improve Patriot Communications and Reliability,” said Roosevelt Conley, Tec-Masters, Inc. Business Development Director. “Our work is challenging and extremely rewarding because it directly benefits the warfighter. Delivering best value products is making a difference.”

Raytheon's Billy Lovelady, Manager Lifecycle Engineering East Coast Logistics Systems, Dave Williams, CRIP Program Manager and James D. Fagan, Business Development Director presented the award to Tec-Masters.

Tec-Masters has successfully worked in the Defense Industry for over 20 years. Headquartered in Huntsville, Alabama, Tec-Masters provides innovative technical solutions for Defense, Federal and Commercial customers worldwide. We specialize in Mission Support, System Integration, Maintenance, Training, Multimedia Production, Logistics, Information Technology, Software Development and Customized Engineering & Manufacturing.
